GLOBAL RESORT SERVICES

Global Resort Services is a world leader in the vacation advertising industry. Now that you have decided to sell or rent your timeshare you will want the most effective action possible, which is what we provide.

Our President and most of our employees have many years of experience in the timeshare industry, which has enabled us to develop very successful methods of advertising timeshare properties. In fact, we have been able to assist customers who have been unable to sell their timeshare through any other means.

Information about your property will be made available to prospective buyers/renters through various forms of media and sales professionals. In order for you to sell or rent your timeshare at your desired price and in the least amount of time, it is important for you to reach as many potential buyers/renters as possible. The following is how Global Resort Services gets you the exposure you need to assure the best results.

REAL ESTATE BROKERS

Global Resort Services enables your property to appear in a computerized Timeshare Listing System (TLS). Although Global Resort Services is not a real estate broker, information about your property is made available to a network of real estate offices throughout the country. These brokers specialize in timeshare and have the highest resale averages in the industry. They locate potential buyers through additional forms of advertising and marketing such as off-premise sales centers, auctions and various types of advertising campaigns.

DIRECT MAIL

Global Resort Services contacts potential buyers/renters through our direct mail program. We target existing timeshare owners. Many people who already own timeshare are looking to purchase additional weeks to meet their vacation needs. Upon receiving these mailers they also refer Global Resort Services to their friends and family. These owners become some of your best sources of potential buyers/renters.

NEWSPAPERS

Global Resort Services targets timeshare buyers/renters through advertising in up to 1,500 newspapers across the U.S. and Canada, including USA TODAY and USA TODAY INTERNATIONAL, which reaches 54 countries worldwide. This type of marketing reaches millions of potential buyers/renters. Timeshare buyers/renters are now realizing that the best place to buy/rent a timeshare unit is the resale/rental market. Many people who have toured resorts, stayed with friends at resorts, or are interested in purchasing additional weeks are now turning to newspapers and the Internet for the best deals.

OUR NEWSPAPER ADVERTISING REACHES A TOTAL ESTIMATED CIRCULATION OF OVER 25 MILLION PEOPLE WORLDWIDE!

THE INTERNET

Global Resort Services advertises on the Internet, the newest and greatest advertising medium since television; however, placing a web page on the Net can be similar to putting a billboard up in the woods. If no one sees it then it will not be effective. Our web page address (www.globalresortservices.com) is included in all of our newspaper ads and direct mail, and we are registered with numerous search engines. This brings an enormous amount of interest to our site and potential buyers/renters from around the world.

RENTALS

Global Resort Services' rental program includes the above advertising methods along with advertising in "SABRE"; a computer system where over 56,000 travel agents have access to rental information for interested travelers. The "SABRE" system supplies travel related information (car rental, hotels, tours, etc.) to over 36% of all automated travel agencies.

The "SABRE" system and the combined marketing expertise of Global Resort Services offers you as a timeshare owner the finest opportunities available in the travel industry to receive rental income from your valuable vacation property.
